Visa Master Card Discovery Card American Express

Credit Card Number: _____ Expiration Date: _____ CVV Code: _____

Name on the card: _____ Phone Number: _____

Thank you for helping a child look themselves and live their lives!

Requirements: minimum of 12 inches, No Chemically treated or colored hair,

No Grey hair, No dreadlocks, please make sure that the hair is clean & dry before sending

Please include this form with your hair donation package.

Hair Donation Requirements

Hair donations must be a minimum of 12 inches in length to ensure that we can provide prosthetics for children who wish for long hair. It takes twenty to thirty ponytails or braids to create one Hair Replacement.

We cannot accept hair that has been chemically processed -- perms, color treated or highlights. Natural color or highlights that wash out are acceptable. Hair that has been chemically processed will not withstand the chemical processing to sanitize the hair. We no longer accept gray hair.

Hair that is donated must be clean and dry before mailing.

How to Cut a Ponytail

We rely on talented hair professionals to properly cut the ponytails and braids that are then donated to Wigs for Kids. When cutting hair that is to be donated to Wigs for Kids, please follow these simple steps:

1. Make sure hair is a minimum of 12 inches.
Pull curly hair straight for a more accurate measurement.
2. Hair must be clean and dry. Wet hair will mold in shipping and will be thrown away.
3. Hair cannot be permed, color-treated, or highlighted. Temporary coloring or highlights that washout are acceptable, but must be completely washed out before cutting.
4. Tie hair into at least four sections (six are even better) around the head for a more generous donation. Hair that is pulled into one ponytail or braid results in a loss of up to four inches of hair. To do so, first make a center part. Starting from this center part, part the hair over the top of each ear. This will create four sections of hair. To create four ponytails, tie the hair in front of each ear into ponytails, and then tie the hair behind each ear into ponytails.
5. Make sure each ponytail or braid is tightly secured. Hair that is loosely wrapped tends to become loose when shipped, making it unusable. PLEASE be sure hair is tight and secured with several rubber bands 2-3 inches apart
6. Cut hair above rubber band.
7. Wrap ALL ponytails in one (1) piece of tissue paper and seal in a Ziploc bag
8. Mail the hair in a sealed envelope or a small shipping box (special containers or insurance are not necessary) to: Wigs for Kids – Hair Donations
